

# Oil & Gas Digital Twin Conference & Exhibition 2025

May 14-15, 2025 | Houston, TX, USA

Discover latest solutions and emerging trends in the industries!

Our current & previous sponsors:

## ABOUT CONFERENCE

The Oil & Gas Digital Twin Conference 2025 stands as a pivotal gathering where industry professionals and technology innovators convene physically to spearhead an extensive digital transformation within the Oil & Gas sector.

In this immersive environment, participants can anticipate a wealth of insights, including real-world case studies and engaging discussions on the latest technological advancements.

This exclusive event is dedicated to exploring the nuances of the digital twin ecosystem, delving into crucial aspects such as sustainability, operational impact using Digital Twin and Generative AI, digital integration in the upstream sector, cybersecurity considerations, and efficiency improvements in Asset Performance Management. Notably, the conference highlights the crucial role of Digital Twin in steering the industry towards a Net Zero Future, emphasizing sustainability and operational excellence as key objectives.

## CONFERENCE PROGRAM KEY TOPICS

### Upstream Digital Integration Analysis

Examining the digital integration in the upstream sector amidst disruptions, technology transitions, and an agile workforce, while simultaneously evaluating the cybersecurity risks associated with enhanced technology deployment

### Best Practices and Case Studies

Highlighting best practices and real-world examples in understanding the dynamics between operators and vendors, focusing on roles, data ownership, and collaborative pathways

### Net Zero Future

Exploring the critical role of a Digital Twin and a data-driven ecosystem in the Sustainable Roadmap for achieving a Net Zero Future through the process of decarbonization

### Digitalizing Asset Performance

Improving business efficiency through digitalization in Asset Performance Management, emphasizing effective data handling and operational models

### Opportunities and Challenges

Navigating opportunities and challenges in corporate adaptation and change management while redefining leadership models

### Digital Twin Impact

Leveraging Digital Twin and Generative AI to gauge their impact on operational efficiency and productivity

## SPONSORS & PARTNERS

### Platinum Sponsor

### Gold Sponsor

### Session Sponsor

### Bronze Sponsor

## FEATURED SPEAKER

**Andrea Mancini**  
Senior Engineering Manager, Europe & CIS  
Honeywell

**Kamilah M A Jamil**  
Head Value Creation,  
Petronas

**Giuseppe Trefiletti**  
Digital Transformation Manager  
Saipem

**Saad Kisra**  
Global Head of Process Simulation  
Schlumberger

**Rafiq Khurshid**  
IT Security Solutions Specialist  
Saudi Aramco

**Wassim Ghadban**  
Vice President, Global Innovation & Digital Engineering  
Kent PLC

**Stelios Panaretos**  
IT Retail Manager  
Motor Oil Hellas

**Vitor Do Valle**  
Head of Centre of Excellence in UX & Digital Technology  
Petrobras

**Subrata Bhowmik**  
Principal Engineer - Innovation  
McDermott International, Ltd

**Iniesta Alberto**  
Director - Customer Solutions  
Worley

**Crispin Chatar**  
Drilling Optimization Champion  
SLB

**Tim Bartlett**  
Leading Engineer Technology Management  
Equinor US

**Vinayak Kharche**  
Head Of Information Systems & Automation  
Adani Petrochemicals

## CONFERENCE IN NUMBERS

### Overview on attendee demographics

Read more information about conference attendees, job titles, job functions, and more.

## COMPANY SIZE

- ✓ 1-100 Employees - 26%
- ✓ 100-1,000 Employees - 22%
- ✓ 1,000-10,000 Employees - 22%
- ✓ 10,000+ Employees - 30%

<b>350+</b> Attendees	<b>24+</b> Technical Speakers	<b>18+</b> Sponsors & Exhibitors
<b>250+</b> Companies	<b>35+</b> Countries	<b>45+</b> Media Partners

### ATTENDEE JOB PROFILES (%)

### ATTENDING COMPANIES (%)

### ATTENDEE SENIORITY LEVEL (%)

### INTERNATIONAL ATTENDANCE (%)

“ Thanks very much for this opportunity. I was impressed by the quality of your event. It was as well run and organized as I’ve ever attended. Great experience! ”

**Arthi Vasudevan**  
Senior Product Manager at Baker Hughes

## ATTENDEE JOB FUNCTIONS

- ✓ Exploration & Production
- ✓ Refineries
- ✓ Oilfield Services Companies
- ✓ Drilling Companies
- ✓ Pipeline Operators
- ✓ Governmental Bodies
- ✓ Project Excellence
- ✓ IT Services and IT Consulting
- ✓ Business Development
- ✓ Equipment Manufacturers
- ✓ Software Development
- ✓ Wireless Services
- ✓ Engineering, procurement, and construction (EPC)
- ✓ Technology, Information and Internet
- ✓ Data Infrastructure and Analytics
- ✓ Data Security Software Products
- ✓ Automation Machinery Manufacturing
- ✓ Digital Innovation
- ✓ Business & Digital Transformation
- ✓ AI & ML

## AMONG REGULAR PARTICIPANTS

### What can you expect?

Insightful keynotes, user case studies, technical demos, a startup competition, brainstorming sessions, open dialogue, the feel of community, and non-stop networking!

# Day 1

## Wednesday, May 14, 2025

● Sponsored Sessions ● Booked Sessions ● Available Sessions

07:30

### Registration & Refreshment Networking

09:00

### Available Session

09:30

### Using Digital-twins to Optimize Heat Exchanger Networks and Monitor Operations

- We first show how digital twin software fits into existing data workflows, and how it can be used to optimize exchanger cleaning schedules.
- Then we delve into a case study where a digital twin was used to select an optimal turnaround cleaning schedule based on total costs, including CO2 impact.
- Finally, we explore other applications for a digital twin, and pending features currently in development.

**Greg Magness**  
Regional Sales Manager, HTRI Heat Transfer Research, Inc.

10:00

### Available Session

10:30

### Implementing Digital Twins in the Oil and Gas Industry: Challenges and Opportunities

- Introduction to the concept of Digital Twin: Explanation of what Digital Twins are and how they can be applied in the Oil and Gas industry
- Use cases and benefits: Practical examples of implementing Digital Twins in Oil and Gas operations, highlighting the benefits in terms of efficiency, safety, and cost reduction.
- Challenges and solutions: Discussion of the main challenges faced in implementing Digital Twins and the solutions adopted to overcome them.

**Edson Bouer**  
Managing Director, Accenture

11:00

### AI in O&G (modernization and innovation)

- Why AI for O&G
- What AI use cases are there for O&G customers & what are the risks
- How do you go about building your AI roadmap

**Anshuman Tiwari**  
AVP Sales – Canada, Celebal

11:30

### Digital Transformation in Process Safety Practices – Achieving Operational Excellence.

- Proactive Risk Management: Early detection of risks through digital analytics has allowed us to shift from reactive to proactive management, preventing incidents before they occur.
- Improved Asset Integrity: Real-time online monitoring and comprehensive dashboards have improved our management of asset integrity, reducing the likelihood of equipment failures.
- Enhanced Process Safety Culture: Digital platforms providing real-time data access have empowered teams to make informed decisions, strengthening our overall safety culture and compliance efforts.

**Arun Kumar**  
General Manager, HMEL

**Anshul Kumar Tiwari**  
Process Safety Management Lead, HMEL

## LUNCH AND NETWORKING BREAK

12:00 (1 Hour)

13:00

### Risk Management and Community Engagement Model for High-Risk Zones

- Cox's Bazar faces escalating security challenges, including transnational crime, radicalism, and geopolitical tensions, posing threats to INGO and MNC operations.
- The risk management framework aligns with ISO 31000 standards, emphasizing hazard and threat segregation, risk scoring, and collaborative mitigation strategies.
- Platforms like BD Professionals have proven effective in fostering rapid information sharing and community support during crises.

**Tasdid Swad**  
Country Security Focal, Plan International

13:30

### AI-Driven Mobile Suite: Revolutionizing Oilfield Service Operations

- Objective: Implement a mobile solution to enhance field efficiency and streamline equipment management.
- Methods: Integrate AI-powered communication, real-time management, and digital authorization.
- Results: Achieved 30% efficiency increase and reduced document approval times from 2.5 days to 4 hours.

**Michael Maltsev**  
CEO, riger® - Oilfield Services ERP

14:00

### Digital Transformation, from the edge to the Cloud

- Digital Transformation, what do you mean?
- Edge data storage solutions
- Introduction to the Data Storage Appliance
- Much more than storage
- Imagery service offerings

**Thomas Peters & Michael Hotrum**  
Founder, Imagery Business Systems, LLC

**Thomas Peters & Michael Hotrum**  
CEO, Imagery Business Systems, LLC

## NETWORKING BREAK

14:30 (30 Min)

15:00

### Optimizing Natural Gas Compression: Utilizing a Digital Twin to Revolutionize Compressor Control

- Operators managing compressor fleets face challenges with dynamic field conditions, limited asset visibility, strict environmental regulations, & costly downtime. Traditional solutions often rely on fragmented systems & manual processes, leading to inefficiencies & suboptimal performance.
- This session explores how Dynamic Package Control, achieved with Digital Twin technology running on edge devices, addresses these challenges. Attendees will gain insight into the evolution of compressor management, from reactive maintenance to predictive insights & autonomous operation.
- We will discuss the current challenges, the limitations of existing approaches, and the vision of an ideal state where edge-enabled Digital Twin models enhance control and optimize performance.
- Learn how this approach extends operating ranges, prevents failures, reduces emissions, and supports sustainability, ultimately transforming compressor management into a streamlined, efficient process.

**Zachary Bennett**  
SME, DETECTION

15:30

### Real Time Well Engineering with Generative Artificial Engineering Intelligence (GenAel): At Speed, At Scale, At Edge, in Real Time

- It is not just drilling ahead with digital self-diagnosis self-healing but with data, ML, AI, automation, and people converging to autonomics making the well construction in self-configuring, self-diagnosis, self-optimizing and self-managing state.
- Digital well program consists of engineering formalism through engineering microservices, plus interpretation of data and thus providing the reaction link between the mathematical formulation and elements of the physical world.
- The talk will provide the context and the requirements of engineering microservices coupled with GenAel models for the new paradigm of well construction at scale, at speed and at edge.

**Robello Samuel**  
Chief Technical Advisor & Senior Fellow, Halliburton

16:00

### The Digital Twin. It's not just for breakfast anymore.

- If a plant's lifecycle were a day, breakfast would be construction. A poor breakfast leads to bad choices at lunch and dinner.
- Transformations are painful and expensive, but don't require luxury; they can start with existing tools in any company's kitchen.
- Getting the digital twin right from the start can prevent costly transformations and accelerate performance to first-quartile levels.

**James Haw**  
Vice President of Automation and Digital Strategy, Operations Technology Specialists, LLC

## END OF DAY 1

## Day 2

### Thursday, May 15, 2025

● Sponsored Sessions ● Booked Sessions ● Available Sessions

08:15

#### Registration & Refreshment Networking

09:00

#### Available Session

09:30

#### From Data to Decisions: HTRI Digital Twin Solutions for Heat Exchanger Performance Monitoring, Optimization, and Troubleshooting

- HTRI is a trusted research and software provider in the oil and gas processing industry for computer simulation of heat transfer equipment.
- HTRIconnect™ integrates near real-time plant data with heat exchanger simulations to realize digital twins of air coolers, economizers, and furnaces, as well as plate-fin, spiral plate, and shell-and-tube heat exchangers.
- Explore applications of digital twins in realistic scenarios to estimate fouling that affects heat transfer performance and tube metal temperatures that cause creep failure in operation.

**Fred Hendrix**  
Group Lead, Software Development, HTRI Heat Transfer Research, Inc.

10:00

#### Digitalization Drives Turnaround and Plant-Based Project Excellence

- Review industry turnaround and plant-based project performance trends
- Demonstrate how digital technologies contributes to better performance:
- Discuss how organizations can effectively implement digital tools

**Brett Schroeder**  
Co-Founder and CEO, AP Networks

10:30

#### Maximizing Maintenance Savings with Digital Twins and AI

- Predict failures and reduce downtime by integrating AI models into digital twins for proactive maintenance.
- Optimize asset performance and lifecycle costs through data-driven, predictive insights.
- Enhance operational efficiency and safety with real-time monitoring and intelligent decision-making.

**Vincenzo Marchica**  
Chairman, Intelligent Automation Congress

11:00

#### Rapid Technical Analysis Digital Twin Technology

- Using Digital Twin technology to rapidly analyze operational risk and reliability
- prepare industry/regulatory certified 3rd party reports on demand

**Garry Davis**  
President and CEO, BOP Risk Mitigation Services, LLC

11:30

#### Designing Digital Twins: Avoiding no-ROI Twins by Working Backwards from the Real World

- Digital twins create change in the real world, but are often designed as software only bundles of capabilities.
- Multiple digital twin projects are "flaming out" 2-3 years after inception, due to lack of measurable improvements and low adoption.
- In order to avoid the no-ROI situation, digital twins require strong product thinking to create, measure and improve change in the real world.
- Digital twins create change in the real world, but are often designed as software only bundles of capabilities.
- Multiple digital twin projects are "flaming out" 2-3 years after inception, due to lack of measurable improvements and low adoption.
- In order to avoid the no-ROI situation, digital twins require strong product thinking to create, measure and improve change in the real world.

**Rob Foster**  
CEO, Geminum

### LUNCH AND NETWORKING BREAK

12:00 (1 Hour)

13:00

#### Digital Transformation for Equipment Health in a Refinery Setting using a Digital Infrastructure and Analytics to Inform Decisions

- The Digital Transformation ERA
- Understanding Equipment Health and Performance
- Digital Transformation Technology Components (People, Process, and Technology)
- A Refinery of the Future Pilot case study

**Preston Johnson**  
Business Development Leader, Cutsforth

13:30

#### Improving Safety, Efficiency, and Sustainability with Digital Twins in Oil & Gas

- Understand the key benefits of implementing digital twin technology in oil and gas operations
- Learn how digital twins can address specific safety, efficiency, and sustainability challenges
- Discover real-world examples of successful digital twin implementations in the oil and gas industry
- Gain insights into the future of digital twin technology and its potential impact on the oil and gas sector

**Keshav Sundaresh**  
Senior Director of Digital Transformation, Altair

14:00

#### Available Session

### NETWORKING BREAK

14:30 (30 Min)

15:00

#### Unlocking the Full Potential of Digital Twins in Oil & Gas Operations

- The role of Digital Twins in optimizing asset performance and operational efficiency
- Integrating AI and machine learning to enhance predictive maintenance and decision-making.

**Ahmed Farouk**  
G.M. center of excellence Egyptian Natural Gas Company (GASCO)

15:30

#### Available Session

16:00

#### Available Session

### END OF DAY 2

## SPEAKING OPPORTUNITIES

### Want to become a speaker?

Get in touch with us for more information on Speaking opportunities!

#### Production Team

Misbah Shaikh  
[misbah.shaikh@ptnevents.com](mailto:misbah.shaikh@ptnevents.com)

Noah Scott  
[noah.scott@ptnevents.com](mailto:noah.scott@ptnevents.com)

PTN Events Team  
[info@ptnevents.com](mailto:info@ptnevents.com)

#### Speaking Session

30 minutes session includes 10 min Q&A's

Live sessions in-front of delegates

Certificate of Appreciation

20 min for talk + 10 min for Q&A's

USD \$1299

#### Panel Discussion

1 hour session for 5 speakers

Live panel discussion in-front of delegates

Certificate of Appreciation

Discussion between panelists only

USD \$1699

Please note that Speaker package is available only after the topic approval by the Production team.

## DELEGATE REGISTRATION

### Want to book delegate ticket?

Below are the various options for delegate participation.

**Super Early Bird**  
SOLD OUT

USD \$799

**Early Bird**  
Window closing on Mar 05, 2025

USD \$899

**Regular Pass**  
Window closing on May 14, 2025

USD \$999

#### Ticket includes ✨

- Watch any talk live during the conference days
- Certificate of participation
- Q&A discussions
- Full access to all conference stages and the exhibitions
- Online access to selected post-conference materials
- Networking opportunities on the Exhibition Floor
- Access to all networking activities
- End of Day 1 networking drinks reception

**GROUP DISCOUNTS**

**10%**  
GROUP OF 2

**15%**  
GROUP OF 3

**20%**  
GROUP OF 5

Get in touch with us on [info@ptnevents.com](mailto:info@ptnevents.com) to avail group discounts on your purchases.

# Want to become a sponsor or exhibitor?

Get in touch with us for more information on Sponsorship opportunities!

## Sponsorship & Media Team

Chris Lee  
[chris.lee@ptnevents.com](mailto:chris.lee@ptnevents.com)

Sarah Jones  
[sarah.jones@ptnevents.com](mailto:sarah.jones@ptnevents.com)

### Benefits include ✨

- Acquire valuable sales leads and customer feedback
- Deliver presentation in front hundreds of decision makers
- Network with leaders, grow your business at this event
- Share your company's expertise with a targeted group of experts
- Showcase advanced technologies, valuable services & unique expertise
- Personally interact with potential and current customers
- Fastest & most cost-effective platform to meet buyers
- Identifying new potential customers, suppliers and partners

“ Many thanks to you the incredible team for organizing the event. Watching for 2 days was very insightful and your team efforts to organize everyone from around created the success. ”

## EXHIBITION FLOOR PLAN

## ABOUT ORGANIZER

PTN Events, a premier organizer of cutting-edge B2B conferences that seamlessly blend business and knowledge. At the forefront of the industry, we curate exclusive gatherings that transcend borders, bringing together a dynamic mix of corporates, governments, associations, industry leaders, and high-net-worth individuals.

Our conferences serve as global forums where industry visionaries converge to explore and navigate the transformative landscape of cutting-edge technologies. As catalysts for innovation, we facilitate robust discussions and collaborations that transcend geographical boundaries.

At PTN Events, we pride ourselves on creating an immersive environment where knowledge flows freely, and connections flourish. Whether you're a corporation seeking strategic partnerships, a government entity exploring policy implications, or a thought leader on the brink of the next big idea, our conferences provide the platform to engage with the pulse of industry evolution.
